

Chain-of-custody log

Who handled which device, document or backup, and when. Protects the estate against later disputes; record every action, including 'no action taken'.

Item	Date	Found by	Where found	Condition	Handled by	What was done	Now kept at

Never write seed words, private keys or passwords in this log. Their existence may be noted; their content never. Keep the log and the items under the authorised representative's control, with the estate file.
